## DETAILED ACTION

### *Drawings*

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: all reference numbers of FIG.1 and 5. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application.
2. The drawings are objected to because the FIG. 6 does not include reference number. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the

Art Unit: 2875

examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

3. Claims 1, 2, 3, 9 and 11-13 are objected to because of the following informalities:

Claim 1, "comprises" in line 3 or line 1 should be changed to have/include because the phrase before the word "comprise" is preamble, prior art.

Claims 1, 2 and 3, "a regular synchronous flash" and "a fancy flash performance" in line 9 of claim 1 and in line 2 of claims 2-3 should be changed to --the regular synchronous flash-- and --the fancy flash performance--.

Claim 9, "the flash marking" in line 2 should be changed to --the flash markings--.

Claim 1 and 11-13, the applicant recites "flash control signals", "a flash control signal" and "the flash control signal". Are they different or the same?

Appropriate correction is required.

### ***Allowable Subject Matter***

4. Claims 1-15 are allowed.

The following is a statement of reasons for the indication of allowable subject matter of claim 1: a chain-control device for solar road studs comprises a plurality of flash markings for performing a flash. In which, each road stud comprises an input device, a processing device and an output device.

Claims 2-15 are dependent on claim 1.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Liao et al. [US 2001/0055206] and Higgs [US 2004/0021580] disclose a lighting device for roadway use.

6. This application is in condition for allowance except for the following formal matters:

Drawings and Claim Objections set as above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
